

**2015**  
**Five Star Dealer**  
★ ★ ★ ★ ★

# The New Five Star Dealer Program

**The new Five Star Dealer Program is designed to support and highlight our top integrators to ensure we meet customers' expectations of a professionally installed solution. The annual program features open enrollment throughout 2015. This year, to further promote our top partners, Leviton has added the Elite Five Star Dealer designation, in addition to the Five Star.**

# How Do I Become a Five Star Dealer?

**Leviton is the largest privately-held global provider of electrical wiring devices, data center connectivity solutions and lighting energy management systems.**

## The Extra Mile

Leviton has a portfolio of over 27,000 products and nearly 1,000 patents. We manufacture more than 2 million units per day and employ almost 7,000 people in over 80 countries worldwide.

Every year, Leviton rewards exemplary integrators that go above and beyond with services and product knowledge. For over a dozen years, these individuals have solved challenges with our products and continue to make the Smart Choice.

These select companies receive sales leads as part of our new leads database efforts, have direct access to free print literature, and are offered exclusive promotions, amongst other benefits. Their valuable input during the application process helps shape product development, marketing material creation, and overall business operations.
